SpecSuite: All Your Raman Tools, In One Place

SpecSuite is an all-in-one software platform for i-Raman laboratory instruments. Designed for both exploratory research and high-throughput routine analysis, it delivers intuitive navigation and robust capabilities that streamline data collection across applications and experience levels. SpecSuite is redefining what's possible with Raman.

SpecSuite's modular design enables users to start with essential components and add more as workflows evolve.

MODULES INCLUDE:

Explore – Collect Raman data within seconds of setup through a streamlined interface. Offers real-time data visualization and simple control over parameters like laser power, integration time, spectral averaging. Included in SpecSuite Basic License.

Spectral Library & Identification – Create custom libraries to identify unknowns or verify known substances. Metrohm's Comprehensive Raman Libraries provide instant access to thousands of reference spectra, for rapid, accurate chemical identification.

Quantitative Modeling & Routine Analysis – Develop predictive models with i-Raman data for streamlined routine analysis. Designed for both novice and expert users, including operator-level personnel.

ORDERING INFORMATION

SpecSuite Software	
6.6079.140	SpecSuite Software Basic License
6.6079.150	SpecSuite Software License- Identification
6.6079.160	SpecSuite Software License- Quantitative
6.6079.170	SpecSuite Software License- Regulatory Compliance
Libraries	
6.6079.180	MCRL for SpecSuite
6.6079.190	MCRL Inorganics and Organometallics for SpecSuite
6.6079.200	MCRL Organics Complete for SpecSuite
6.6079.210	MCRL Personal Care Products for SpecSuite
6.6079.220	MCRL Polymers and Polymer Additives for SpecSuite
6.6079.230	MCRL Dyes, Pigments and Stains for SpecSuite
6.6079.240	MCRL Minerals for SpecSuite
6.6079.250	USP for SpecSuite
6.6079.260	Illicit for SpecSuite
